

# CUMULATIVE INDEX 1997

## Volume 16

January	ARTHROSCOPIC SURGERY, PART II: THE KNEE, pages 1-178
April	STRESS FRACTURES, pages 179-360
July	PRIMARY CARE OF THE INJURED ATHLETE, PART I, pages 361-568
October	PRIMARY CARE OF THE INJURED ATHLETE, PART II, pages 569-782

Note: Page numbers of article titles are in **boldface** type

- Abdomen, injuries of, in athlete, 744-751  
 wall of, injuries of, 744-745
- Abrasion arthroplasty, arthroscopic, 62-65
- Achilles tendinitis, insertional, 458-459
- Achilles tendon, acute rupture of, 459-460
- Achilles tendon allograft, in reconstruction of posterior cruciate ligament, 151-152
- Acromioclavicular joint, sprain of, 685-686
- Adolescent athletes, sports injuries in, 613-633
- Age, and stress fractures, 205
- Airsoles, in athletic shoes, 255
- Alar fold, lateral, 94
- Alar ligament, 92, 93
- Allergic rhinitis, 650-651
- Amenorrhea, athletic, 575-576, 598-600  
 hypothalamic hypoeutrogenic, and bone health, 208-209  
 stress fractures and, 346, 347
- Amphetamines, 376-377
- Anabolic-androgenic steroids, 381-383  
 commonly used, 383  
 side effects of, 384-385
- Anaphylaxis, exercise-induced, in athlete, 644-645  
 in athletes, 667
- Anesthesia, examination of patient under, for arthroscopic reconstruction of anterior cruciate ligament, 129-130
- Ankle, impingement of, anterior, 461-462  
 anterolateral, 462-463  
 injury(ies) of, acute, in pediatric and adolescent athletes, 627-630  
 and foot injuries, primary care of, 435-466  
 magnetic resonance imaging in, 409-410  
 occult fractures about, 446-452  
 sprains of, as misdiagnosis, 439-452  
 atypical, 440-445  
 lateral, chronic, 437-439  
 diagnosis of, 438  
 symptoms of, 437-438  
 treatment of, 438-439  
 classification of, 437  
 clinical presentation of, 436  
 diagnosis of, 435-436  
 incidence of, 435  
 operative treatment of, 437  
 radiographic studies in, 436-437  
 medial, 440-441
- Anorexia nervosa, 576, 594-595, 596-597  
 effects of, on bone, 213-214
- Anterior cruciate ligament, injuries of, in female athlete, 606-607
- Anterior interosseous nerve syndrome, 693-694
- Apophysitis, in female athlete, 606  
 Sever's, 618
- Appendicitis, acute, in athlete, 748
- Arthritis, degenerative, following meniscectomy, 70  
 of knee, arthroscopic debridement in, 60-61
- Arthrography, computed tomography with, for diagnosis of athletic injuries, 395, 398  
 for evaluation of meniscal lesions, 73  
 plain film, for diagnosis of athletic injuries, 395-396, 399-400

- Arthroplasty, abrasion, arthroscopic, 62-65
- Arthroscopes, for arthroscopy of knee, 7-8, 9
- Arthroscopic abrasion arthroplasty, 62-65
- Arthroscopic debridement, 59-62
- in degenerative arthritis of knee, 60-61
- of knee, upper tibial osteotomy and, 65-66
- Arthroscopic lavage, for osteoarthritic knee, 57-58
- Arthroscopic surgery, of knee, 1-174
- Arthroscopically assisted surgical techniques, in injuries of posterior cruciate ligament, 148-153
- Arthroscopy, and malalignment of knee, 65-66
- diagnostic, of anterior cruciate ligament, 130-131
- of knee, 40-41
- in osteochondritis dissecans, 165-168
- in repair of medial meniscus in athlete, 69-86
- medial synovial plicae at, 105-109, 110
- of knee, basics of, 1-16
- in degenerative knee in older athletes, 51-68
- in meniscal lesions, 74-75, 76
- of patellofemoral joint, 17-28
- Arthroscopy room, 4-6
- Articular cartilage, lesions of, classification of, 52-53
- Asthma, exercise-induced, in athlete, 642-644
- in high school and college athletes, 574-575
- in athlete, 642
- Athlete(s), adolescent, sports injuries in, 613-633
- arthroscopic repair of medial meniscus in, 69-86
- college, preparticipation sports examination for, 569-591
- female. See *Female athlete(s)*.
- high-performance, stress reactions of bone in, magnetic resonance imaging of, 291-306
- high school, preparticipation sports examination for, 569-591
- injured, emergency care of, 369-370
- performance enhancement of, psychosocial approaches to, 760-765
- primary care of, 361-562, 569-768
- older, degenerative knee in, arthroscopic treatment of, 51-68
- pediatric, sports injuries in, 613-633
- stress fractures in, 225-238
- Athlete's foot, 664
- Athletic injuries. See *Injuries(ies)*.
- Athletic trainer. See *Trainer(s)*, athletic.
- Atlantoaxial joint, instability of, collision activities and, 512, 514
- rotatory fixation of, collision activities and, 513-514, 515
- Atlanto-occipital fusion, contact sports and, 503, 504
- Attention refocusing, 764
- Axial skeleton, stress fractures of, in pediatric patients, 231-233
- Back, low, pain in, in female athlete, 605-606
- Bacterial infections, in athletes, 665-666
- Beta-blockers, 385-386
- Biofeedback, electromyography, 762-763
- performance improvements and, 762
- Blisters, in athletes, 666
- Blood doping, 388-389
- Boils, in athlete, 665-666
- Bone, biology of, overview of, 199-201
- effects of anorexia nervosa on, 213-214
- effects of calcium on, 211
- effects of disordered eating on, 213
- effects of inadequate calories on, 213
- effects of vitamin D on, 212-213
- health of, delayed menarche and, 208
- hypothalamic hypostrogenic amenorrhea and, 208-209
- nutritional factors and, 211-214
- oral contraceptive pills and, 210
- ovulatory disturbances and, 209-210
- testosterone in men and, 210-211
- injury to, magnetic resonance imaging in, 412-413
- loss of, prevention of, 216
- physiology of, 260
- stress injury to. See *Stress fracture(s)*.
- Bone density, assessment of, 214-215
- Bone health, pediatric, 203
- Bone mass, low-peak, 203
- peak, maximizing of, 215-216
- Bone mineral density, gender differences in, 204
- Bone-patellar tendon-bone allografts, for anterior cruciate ligament reconstruction, 125
- Bone-patellar tendon-bone autografts, for anterior cruciate ligament reconstruction, 125
- Bone-patellar tendon-bone reconstruction, in anterior cruciate ligament tears, 135-140
- Bone scan(s), appearance of, in stress fractures versus shin splints, 349
- for differential diagnosis of stress fractures, 474-475
- in diagnosis of stress fractures, 349-350
- radionuclide, for diagnosis of athletic injuries, 396-399
- Bone spurs, of elbow, 688-689

- Bone strain. See *Stress fracture(s)*.  
 Boutonnière deformity, 712  
 Boxer's fractures, 710  
 Bracing, in stress fractures, 351-352  
 Brain injury, etiology of, 532-533  
   types of, 533-541  
 Breast, injuries of, 741  
 Bronchospasm, in athlete, 642-644  
 Bulimia nervosa, 576, 594-595, 597
- Caffeine, 377-378  
 Calcaneal apophysitis, 461  
 Calcaneus, anterior process of, fractures of, 447, 448  
   stress fractures of, 273  
 Calcium, effects of, on bone, 211  
 Calluses, in athletes, 666  
 Calories, inadequate, effects of, on bone, 213  
   requirements of, during pregnancy, 603  
 Cannula(ae), for anterior cruciate ligament reconstruction, 129  
 Capitellum, osteochondritis dissecans, 696-697, 700  
 Carbohydrates, for athlete, 369  
 Cardiovascular risk factors, in high school and college athletes, 573-574  
 Carnitine palmitoyl transferase deficiency, 432  
 Cataracts, in athlete, 648  
 Cauliflower ear, 560-561  
 Cerebrospinal fluid, and brain injury, 532-533  
 Cervical spine, athletic injury to, helmet and, 369-370  
   C1-C2 fusion of, collision activities and, 515  
   congenital conditions of, collision activities and, 503-506  
   developmental conditions of, collision activities and, 506-511  
   developmental stenosis of, collision activities and, 506-509  
   management of athletes in, 509-510, 511, 512  
   fusion of, status following, and contact activities, 525-528, 529  
   lesions of, classification of, 502  
   participation in collision activities following, 501-530  
   middle and lower, fractures of, contact sports participation in, 517-524, 525  
   ligament injuries of, contact sports participation in, 516-517, 518-520  
   traumatic conditions of, participation in contact sports in, 516-524  
   structure and mechanics of, 502-503  
   upper, involving fracture, participation in contact sports and, 514, 515, 516  
   traumatic conditions of, 512-515  
 Cheekbone, fracture of, 556-558  
 Chest wall, injuries of, 740  
 Chondrocalcinosis, degenerative joint disease and, 56  
 Chondromalacia, 22-25, 56, 57  
   arthroscopic treatment of degenerative joint disorders and, 56, 57  
 Chondromalacia patellae, 623  
 Chorda obliqua synovialis, 92, 93  
 Circumduction maneuvers, in meniscal lesions, 72  
 Clenbuterol, 378-379  
 Closed-chain exercises, in rehabilitation, 372-373  
 Cocaine, 379-380  
   use by college athletes, 580-581  
 Cognitive restructuring, 764  
 Cold sores, in athletes, 651  
 Collateral ligament, lateral, injuries of, diagnosis of, 491  
   etiology of, 490  
   physical examination in, 491  
   medial, function of, 489  
   injuries of, diagnosis of, 489-490  
   etiology of, 489  
   treatment of, 490  
     with treatment of anterior cruciate ligament injury, 128  
 Collision activities, participation in, following lesions of cervical spine, 501-530  
 Common cold, 650  
 Compartment syndrome, acute, causes of, 429  
   diagnosis of, 429-430  
   treatment of, 430  
 Chronic. See *Exertional compartment syndrome*.  
 exertional. See *Exertional compartment syndrome*.  
 Compression, in acute injuries, 371  
 Computed tomography, arthrographic, for diagnosis of athletic injuries, 395, 398  
   for diagnosis of athletic injuries, 394-395, 396-397  
   in hepatic injury, 746, 747  
   in splenic injury, 745, 746  
   in stress fracture, 350  
   in pediatric patient, 229  
   of patellofemoral joint, 38, 99, 100  
 Concussion, definitions of, 533-534  
   grading of severity of, 534-535  
   in high school and college athletes, 577-578  
   recognition and management of, 534-535  
   return to competition after, 535-537  
 Conditioning programs, prevention of injury and, 362-363  
 Conjunctivitis, in athlete, 647

- Connective tissue, adaptation of, to stress, 344-345
- Contusions, soft-tissue, 425-428
- Corns, in athletes, 666-667
- Coronary artery disease, atherosclerotic, and sudden death during exercise, 726
- Craniofacial disjunction, 559
- Cross training, for prevention of injury, 367
- Cruciate ligament, anterior, anatomy of, 481
- arthroscopic reconstruction of, 123-144
- arthroscopic evaluation for, 130-131
- bone-patellar tendon-bone reconstruction for, 135-140
- equipment for, 129
- graft selection for, 124-127
- hamstring augmentation in, 131-134, 135
- indications for, 127-128
- patient evaluation for, 128-129
- patient positioning/examination under anesthesia for, 129-130
- rehabilitation following, 141
- versus open reconstruction, 123-124
- with treatment of medial collateral ligament injury, 128
- clinical evaluation of, 482-483
- in knee function, 481-482
- tears of, 480-485
- confirmation of diagnosis of, 483-484
- diagnosis of, 480
- mechanics of injury in, 482
- timing of surgery in, 485
- treatment of, 484-485
- posterior, anatomy of, 147, 486
- arthroscopic reconstruction of, 145-156
- rehabilitation following, 153-154
- results of, 154
- biomechanics of, 147-148
- injuries of, 485-488
- arthroscopically assisted surgical technique in, 148-153
- associated injuries in, 486
- diagnosis of, 486-487
- etiology of, 486
- history taking in, 146
- natural history of, 145, 147
- nonoperative management of, 147
- physical examination in, 146
- radiologic examinations in, 488
- surgical indications in, 148
- treatment of, 488
- treatment of, controversy concerning, 145
- Cubital tunnel syndrome, 692-693
- Cue-instructional self-talk, 764
- De Quervain's tenosynovitis, 720-721
- Debridement, arthroscopic, 59-62
- in degenerative arthritis of knee, 60-61
- of knee, upper tibial osteotomy and, 65-66
- Degenerative joint disease, arthroscopic treatment of, selection criteria for, 55-56, 57
- arthroscopy in detection of, 54-55
- diagnosis of, 53-55
- functional assessment in, 53
- in older athletes, arthroscopic treatment of, 51-68
- physical examination in, 53
- radiographic studies in, 54
- Dehydration, 638
- Deltoid, chronic insufficiency of, 441
- isolated sprain of, treatment of, 440-441
- Dental occlusion, normal, sports-related injuries and, 545-546
- Deutschlander's fracture, 340
- Diabetes mellitus, in athlete, 639-641
- Diarrhea, in athlete, 645-646
- runner's, in athlete, 647
- traveler's, in athlete, 646-647
- Diet, of athlete, 368-369
- Diuretics, 386
- Doping, array in, 383
- classes of, 376-388
- continuous, 383
- cycling in, 383
- definition of, 375
- documentation of, 375-376
- pyramiding in, 383
- stacking in, 383
- Drugs, ergogenic, in sports, 375-392
- use by college athletes, 580-581
- Dyspepsia, in athlete, 645
- Ear(s), disorders of, in athlete, 649-650
- external, hematoma of, 560-561
- Eating disorders, diagnosis of, 597-598
- effects of, on bone, 213
- in female athlete, 576, 594-598
- stress fractures and, 310, 315, 351
- treatment of, 598
- Education, for prevention of injury, 367
- Effort thrombosis, 741
- Elbow, 681-704
- anatomy of, 681-682
- biomechanics of, 681-682
- history of athlete and, 682
- Little League, 616-618, 695, 698-699
- magnetic resonance imaging in, 410-411
- nerve compression syndromes of, 691-694
- of adult athlete, trauma to, 694

- of pediatric athlete, injuries to, 695-701
- physical examination of, 682
- posterolateral rotatory instability of, 690
- tendinopathies of, 682-685
- throwing injuries and, 685-690
- Electrocautery, for arthroscopy of knee, 14, 15
- Electromyography, biofeedback, 762-763
- Emergency care, of injured athlete, 369-370
- Energy, during running, 246
- during walking, 246
- Environmental factors, athletes and, 637-639
- Epicondylitis, lateral, 682-684
- medial, 684-685
- Epistaxis, 651
- Equipment, for arthroscopic reconstruction of anterior cruciate ligament, 129
- for arthroscopy of knee, 5
- Ergogenic drugs, in sports, 375-392
- Erythropoietin, 389-390
- Ethnicity, stress fractures and, 204-205
- Examination, sports, preparticipation. See *Preparticipation sports examination.*
- Exercise(s), asthma induced by, in high school and college athletes, 574-575
- cardiac complications during, causes of, 738-739
- closed-chain, in rehabilitation, 372-373
- during lactation, 604
- flexibility, for prevention of injury, 363-364
- in postpartum period, 604
- in treatment of anterior knee pain, 38-39
- pregnancy and, 602-604
- sudden death during, 726
- Exertional compartment syndrome, 267
- acute, 430
- etiology of, 471-472
- examination and diagnostics in, 472
- management of, 472-473
- signs and symptoms of, 430-431
- treatment of, 431
- Extensor carpi ulnaris subluxation, 721
- Extensor carpi ulnaris tenosynovitis, 721
- Extremities, lower, stress fractures of, in pediatric patient, 229-230
- upper, stress fractures of, in pediatric patients, 230-231, 232
- Eyes, assessment of, in sports-related facial injuries, 544
- disorders of, in athlete, 647-648
- Face, abrasions of, 550
- contusions of, 550
- injuries of, skeletal, common patterns of, 552-561
- soft-tissue injuries in, 547-552
- sports-related, 543-562
- general principles and initial care in, 546-547
- physical examination in, 543-546
- types of, 550-552
- lacerations of, 550-552
- Facial nerve, anatomy of, 548-549
- "Female athlete triad," 594-602
- Female athlete(s), 593-612
- osteoporosis in, 198-199
- preparticipation sports examination for, 575-576
- stress fracture in, 197-224
- unique risk factors in, 575-576
- Femur, stress fractures of, 271-273, 307-317
- diagnosis of, 310
- femoral condyle, 316-317, 318
- femoral neck, 311-314
- femoral shaft, 314-315, 316
- origin of, 309-310
- treatment of, 311
- Fetus, effects of exercise on, 603-604
- Finger(s), angulation of, following fracture, 710-711
- index, fractures of, 710
- First aid, for athletic injuries, 370-371
- Fitness, level of, and stress fractures, 206
- running programs to improve, 366-367
- Flexibility exercises, for prevention of injury, 363-364
- Flexor carpi radialis tendinitis, 722
- Flexor carpi ulnaris tendinitis, 722
- Flexor digitorum profundus tendon, avulsion of, 712
- Fluid management, for arthroscopy of knee, 2-3
- Folds, of synovial membrane. See *Plica(ae).*
- Foot (Feet), disorders of, in female athlete, 608-609
- injuries of, and ankle injuries, primary care of, 435-466
- shapes of, and injury in runners, 245
- stability of, 249
- structure of, 249, 250
- Footwear. See *Shoes.*
- Forceps, basket, for arthroscopy of knee, 9-10
- Fracture(s), angulation of finger following, 710-711
- anterior process of calcaneus, 447, 448
- Jones, 269
- Le Fort, 557, 559-560
- maissoneuve, 443-444
- march, 259, 330, 342
- metacarpal, 710-711
- metatarsal, 456-458
- occult, about ankle, 446-452
- of frontal sinus, 552-553, 554

Fracture(s) (*Continued*)

- of index finger, 710
  - of lateral process of talus, 447-449
  - of nose, 554, 555-556
  - of os trigonum, 449-450
  - of posterior process of talus, 449-450
  - of ribs, 740
  - of sternum, 740-741
  - of thumb, 710
  - of wrist, 715-717
  - of zygoma, 556-558
  - orbital blow-out, 553-555
  - osteoporotic, in female athlete, 576
  - phalangeal, 706-709
  - physeal, acute, in pediatric and adolescent athletes, 622-623
  - plain film radiography in, 393-394
  - stress. *See Stress fracture(s).*
  - tuft, 706
  - zygomatocomaxillary complex, 554, 558-559
- Friberg's infarction, 270
- Frontal sinus, fractures of, 552-553, 554
- Fungal infections, in athlete, 663-664
- Furuncles, in athlete, 665-666

- Gait cycle, 240-242
- definition of, 239
  - running, 240-241
  - walking, 240
- Gastroenteritis, 749
- Gastrointestinal tract, disorders of, in athletes, 645-647
- Genetic factors, as cause of osteochondritis dissecans, 159
- Genitourinary trauma, in athlete, 749-751
- Glenoid labrum, tears of, 681-682
- Goal setting, and recovery from sports injury, 761
- Grab sign, 624, 625
- Gracilis autografts, for anterior cruciate ligament reconstruction, 125
- Grafts. *See also specific types of grafts.*
- selection of, for arthroscopic reconstruction of anterior cruciate ligament, 124-127
- Graspers, for arthroscopy of knee, 9
- Groin, pain in, and injuries to, 751-752
- Ground reaction forces, 244
- Growth hormone, 386-388

- Hamate, fractures of, 716-717
- Hamstring(s), augmentation of, prior to anterior cruciate ligament reconstruction, 131-134, 135
- Hand, and wrist, athletic injuries of, primary care of, 705-724

- immobilization of, in safe position, 706, 707
- tendons of, injuries of, 711-712
- Head, athletic injuries to, 531-542
- organizational decisions to prepare for, 531
  - sports with maximal risk for, 532
- Heart, bruise of, 743-744
- complications of, during exercise, causes of, 738-739
- of athlete, 733-745
- adaptations of, 726
  - dimensions of, 726
  - heart rate variability and electrocardiographic findings in, 728-729
  - physiologic and anatomic changes in, 726-730
  - ventricular adaptation and echocardiographic findings in, 727-728
- Heat cramps, 638
- Heat exhaustion, 638
- Heat-related illness, in high school and college athletes, 574
- prevention of, 368
- Heat stroke, 638-639
- Heel pain, plantar, 460-461
- posterior, 458-460
- Helmet, on cervical spine injury athlete, 369-370
- Hemarthrosis, after open or arthroscopic lateral retinacular release, 40, 41, 46
- Hematoma, epidural or extradural, 539
- intracerebral, 540
  - of external ear, 560-561
  - rectus sheath, 744
  - subarachnoid, 540-541
  - subdural, 539-540

 multidirectional instability of, 680-681  
 of athlete, rehabilitation of, 668-669  
 problems of, in female athlete, 605
- Sickle cell trait, in high school and college athletes, 575
- Sinding-Larson-Johansson disease, 619, 620
- Sinus tarsi syndrome, 445
- Skeletal muscle, composition of, 420  
 injury to, in sports, 421
- Skier's thumb, 713-714
- Skin, trauma to, in athlete, 666
- Skin infections, in athletes, 662-666
- Sleep disturbance, in athlete, 641
- Soft-tissues, contusions of, 425-428  
 injuries to, in facial injuries, 547-552
- Spear tackler's spine, contact sports and, 510-511, 513
- Spinal needle(s), for anterior cruciate ligament reconstruction, 129  
 for arthroscopy of knee, 9, 82
- Spine, cervical. *See Cervical spine.*  
 disorders of, in pediatric and adolescent athletes, 630-632  
 injury to, in high school and college athletes, 579
- Spleen, injury to, 745-746
- Spondylolysis, in female athlete, 605-606  
 in pediatric and adolescent athletes, 631, 632
- Sports, preparticipation examination for.  
*See Preparticipation sports examination.*  
 stress in, 758-760
- Sports drinks, 368
- Sports injuries. *See Injury(ies).*
- Squeaker's wrist, 721-722
- Sternum, fracture of, 740-741
- Steroids, anabolic-androgenic, 381-383  
 commonly used, 383  
 side effects of, 384-385  
 use by college athletes, 580-581
- Stimulants, 376-380
- Stomatitis, herpetic, in athlete, 651
- Strain injury, acute, 422-424
- Strength training, for prevention of injury, 364-366
- Strep throat, 653-654
- Stress, and sports injury, 757-758, 759  
 in sports, 758-760  
 reactions to, in bone, in high-performance athletes, 291-306
- Stress fracture(s), 179-357  
 age and, 205  
 area moments of inertia and, 207-208  
 at-risk, 307  
 causes of, 343-347  
 characteristics of, in athletes, 189-191, 192  
 in military recruits, 191-192  
 clinical history in, 262-264  
 and physical examination in, 259-274  
 clinical management of, 302-304  
 confirmatory studies in, 349-351  
 definition of, 197-198, 321  
 development of, 260, 277  
 diagnosis of, 214-215, 262, 347-349  
 differential diagnosis of, bone scans in, 474-475  
 magnetic resonance imaging in, 300  
 epidemiology of, 342-343  
 and site specificity of, 179-196  
 study design for assessment of, 179-181  
 study interpretation for assessment of, 181-182  
 ethnicity and, 204-205  
 etiology of, 473-474  
 management of, and treatment of, 198  
 examination and diagnostics in, 474-475  
 external rotation of hip and, 208  
 extrinsic mechanical factors and, 205-207

- factors predisposing to, 260-261  
 features common to, 262, 263  
 femoral. *See Femur, stress fractures of.*  
 fitness level and, 206  
 footwear and, 206, 249-257  
 future research in, 356-357  
 gender as factor in, 204  
 general concepts concerning, 339-356  
 histological grading of, 294  
 history of, 259, 342  
 hormonal factors and, 208  
 imaging of, 275-290  
 in female athlete, 197-224, 609  
 in pediatric and adolescent athletes, 615, 619-621  
 in pediatric athlete, 225-238  
   anatomic location of, 229-233  
   diagnostic imaging in, 228-229  
   evaluation of, 227-228  
   incidence of, 225-227  
   origin of, 226-227  
   prevention of, 234-236  
   treatment of, 234  
 incidence of, 341, 473  
   increasing, 259  
 injury rates, in athletes, 182-184  
   in military, 184  
 intrinsic mechanical factors and, 207-208  
 locations of, 260  
 magnetic resonance imaging grading system of, 295-299, 304-307  
 management of, 475  
 metatarsal. *See Metatarsals, stress fractures of.*  
 morbidity due to, 192-194  
 navicular, 455-456  
 nutritional therapy in, 217-218  
 of tibia, 265-268  
   treatment of, 352-353  
 physical examination in, 264-265, 348  
 prevention of, 215-216, 356  
 radiographic assessment of, 277-279, 294, 329  
 radionuclide examination in, 279-282, 283, 284, 294  
 rates of, in different age groups, compared, 185-186  
   in female and male athletes and military trainees, 202  
   in men and women, compared, 186-188  
   in whites and blacks, compared, 186, 187  
 recurrence rates, 185  
 relative frequency of, and total injuries, 189  
 return to sports following, 356  
 risk factors for, 201-219, 201-224  
 running surface/terrain and, 206-207  
 scintigraphic grading system for, 294-295  
 shin splints versus, bone scan appearance in, 349  
 shoes and, 206, 249-257  
 site of, by sporting activity, 343  
 stress response and, 277  
 studies of. *See Study(ies), of stress fractures.*  
 symptoms of, 347-348  
 tarsal navicular, 270-271, 348-349  
   treatment of, 353, 355  
 three-phase scintigraphy in, 279-282, 283, 284  
 training regimen and, 205-206, 216  
 treatment of, 216-219, 351-356  
 types of, 276  
 width of tibia and, 207  
 Stress phenomenon, of bone, 299  
 Stress reaction. *See Stress fracture(s).*  
 Stress tests, in meniscal problems, 72  
 Study(ies), of stress fractures, case series, 180-181  
   interpretation of, 181-182  
   prospective cohort design, 180  
   retrospective cohort design, 180  
 Subtalar instability/sprains, 444-445  
 Sudden death, during exercise, 726  
 Superolateral fold, 94  
 Superomedial plica, 92  
 Surgery, in stress fractures, 352  
 "Swimmer's ear," 649-650  
 Sympathomimetics, 380  
 Syndesmotric ligaments, 441-442  
   sprains of, diagnosis of, 441, 442  
   incidence of, 441  
   routine radiography in, 442-443  
   treatment of, 443  
 Synovial plicae. *See Plicae(ae).*  
 Synovium, anteromedial fringe of, 93  
 Talus, lateral process of, fracture of, 447-449  
   osteochondral lesions of, 450-452  
   posterior process of, fracture of, 449-450  
   transchondral fracture of, 450-452  
 Tarsal navicular, stress fractures of, 270-271, 348-349  
   treatment of, 353, 355  
 Tendinitis, 719, 721-722  
 Tendon(s), flexor digitorum profundus, avulsion of, 712  
   of hand, injuries of, 711-712  
   peroneal, subluxation or dislocation of, 445-446  
 Tennis elbow, 682-684  
 Tennis leg, etiology of, 475-476  
   examination and diagnostics in, 476  
   management of, 476-477  
 Tenosynovitis, 719-721

- Tension-release procedure, for muscles, 763
- Terrain, stress fractures and, 206-207
- Testosterone, and bone health, in men, 210-211  
and derivatives of, 381  
treatment with, in stress fractures in men, 217
- Thermoregulation, during pregnancy, 602-603
- Thoracic injuries, in athlete, 739-741
- Thoracoabdominal injuries, in athlete, 739-753
- Throat, disorders of, in athlete, 650, 653-654
- Thrombosis, effort, 741
- Throwing injuries, elbow and, 685-690
- Thumb, fractures of, 710  
skier's, 713-714
- Thyroid disease, in athlete, 641
- Tibia, stress fracture of, 265-268  
treatment of, 352-353  
upper, osteotomy of, and arthroscopic debridement of knee, 65-66  
width of, stress fractures and, 207-208
- Tinea corporis, 664
- Tinea cruris, 664
- Tinea pedis, 664
- Tinea versicolor, 664-665
- Tissue(s), junctional, injuries of, in pediatric and adolescent athletes, 616, 621-622, 623, 624
- Torticollis, 513-514
- Tourniquet, in arthroscopy of knee, 3-4
- Trainer(s), athletic, NATA certified, training of, 361-362  
perspective of, on primary care of injured athlete, 361-374  
practice areas of, 362  
prevention of injuries and, 362-367
- Training regimen, acute change in, stress fractures and, 205-206, 216  
errors in, stress fractures and, 346
- Transverse synovial arcuate folds, 93, 94
- Traveler's diarrhea, in athlete, 647
- Triangular fibrocartilage complex, injuries to, 719
- Triquetrum, fractures of, 717
- Tuft fractures, 706
- Turf toe, 463-464
- Ulna, fractures of, 717-718
- Ultrasonography, for diagnosis of athletic injuries, 400-401
- Upper extremities, stress fractures of, in pediatric patients, 230-231, 232
- Urethral injuries, 750
- Vaccinations, for athletes, 637
- Video monitor, for arthroscopy of knee, 5-6
- Viral infections, in athlete, 654
- Viral rhinitis, 650
- Visual motor behavioral rehearsal, 765
- Vitamin D, effects of, on bone, 212-213
- Walking, energy during, 246  
kinetics of, 243-244
- Walking gait cycle, 240
- Warts, in athletes, 663
- Wound care, 372
- Wrist, and hand, athletic injuries of, primary care of, 705-724  
fractures of, 715-717  
instabilities of, 718-719  
ligamentous injuries of, 718-719  
magnetic resonance imaging in, 411-412  
squeaker's, 721-722
- Zygoma fractures, 556-558
- Zygomaticomaxillary complex fractures, 554, 558-559
